

Tenneco To Webcast Presentation At Its Upcoming Investor Day

June 01, 2010

LAKE FOREST, ILLINOIS, June 1, 2010 – Tenneco (NYSE: TEN) will host an investor tour of its emission control engineering center in Grass Lake, Michigan, on Wednesday, June 9, 2010. The company will kick off the event at 11:30 a.m. ET with a business overview by Chairman and Chief Executive Officer, Gregg Sherrill and presentations by key members of his management team detailing Tenneco's market opportunities and technology roadmap including integrated solutions for future emissions regulations, system integration of electronic controls and software, and advanced electronic ride control systems. Featured technology will include the breakthrough HC-LNC (Hydrocarbon Lean NOx catalyst) developed with GE.

The company's presentation will be webcast and can be accessed by going to the "Investors" portion of its web site at www.tenneco.com. A copy of the slides also will be available under the "Events & Presentations" tab in this section of the web site. A replay of the webcast will be available through July 9, 2010.

Tenneco is a \$4.6 billion global manufacturing company with headquarters in Lake Forest, Illinois and approximately 21,000 employees worldwide. Tenneco is one of the world's largest designers, manufacturers and marketers of emission control and ride control products and systems for the automotive original equipment market and the aftermarket. Tenneco markets its products principally under the Monroe®, Walker®, Gillet™ and Clevite®Elastomer brand names.
